At the senate committee investigation to-day into the removal of the Cheyennes and Poncas, the attention of Brighteyes was called to a paper purporting to be signed by the chiefs of nearly all the Ponca families requesting the president to remove the tribe to another reservation in the Indian territory. Brighteyes exclaimed "Why, White Eagle has told me a dozen times that he never signed any such paper. Why, that is monstrous." Standing Bear was then shown the paper. He read it over, smiled incredulously, made several gestures of disgust accompanied by expressive "ughs," and finally said "That's the white man's way. They write anything and tell us another."

INTER-OCEANIC CANAL MATTERS.

Sharp Practice in the Senate—A Message from the President Expected

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, Feb. 13 —Senator Eaton has rather outwitted Senator Gordon in the inter-oceanic canal matter. While Gordon was busy in the republican cloak room soliciting support to defeat the confirmation of Simmons, Eaton had quietly passed a resolution through the foreign affairs committee calling upon the president for information relative to canal matters. It is quite probable that the president will in answer to this resolution transmit to both houses of congress a message on the subject. Some of the democrats are endeavoring to dissuade the president from sending any such message, as they do not wish the administration to have any benefit from taking the initiative in a reassertion of the Monroe doctrine.

The president of the Washington county agricultural association informs the *Rural Spirit* that the association has taken the preliminary steps to become a member of the national trotting association.

RAILROAD MATTERS

Proposition to Reduce Passenger Rates from San Francisco to New York

CHICAGO Feb 13 —The general passenger agents of the principal western roads centering here met to-day with representatives of the Fort Wayne and Wabash roads to adjust rates. They had not arrived at any satisfactory conclusion but made public the following important correspondence under date of Omaha 13th transpired: Mr Goodman of the Central Pacific R R telegraphs that San Francisco is full of New York passengers awaiting the departure of the next steamship which will sail Feb 20. The P M S S Co is offering a through rate of $[illegible] cabin and $35 steerage and paying five dollars commission each per ticket to hotels etc. Shall I say to Goodman that the Central Pacific may make such rates as may be necessary to hold the business and that you will share the reduction on the basis of the present proportion.

T L KIMBALL

General Passenger Agent U P R R

After a full discussion the roads leading west from here sent the following: "The lines east of Kansas City and Omaha will accept a pro rata per mile upon any rate which the Central Pacific makes to meet rates made by the Pacific Mail to New York provided the tickets are limited to one day beyond the actual schedule time and to be sold at tariff rates with a drawback on New York to the amount of reduction." This answer was not probably entirely satisfactory to the Central Pacific. Under the reciprocal arrangement the Central Pacific proposed that the latter road would get a much larger tariff than under the one to which the answer refers.

Important Railway Contract

LOUISVILLE, Feb 13 —The intensest excitement was created here by the announcement that a consolidation or contract for five years had been entered into between the Louisville & Nashville and Georgia Central roads, each end of the combination is to conduct its affairs in its own way. The aim of it is to give through bills of lading from St Louis to New York and Liverpool and from Louisville and Nashville to the same points. The combination can carry freights at rates that will be ruinous to northern trunk lines. It expects to have a large part of the grain that goes from Chicago to New York and Liverpool by the northern route to take the southern route. It has large steamers plying between Savannah and New York and ocean freights are not only cheaper than rail rates but cheaper than lake rates. It will be a strike for a great part of the eastern business, and it will make rates that will bring to it a great part of the western business. Indeed, nearly every article that Louisville now imports will come by way of Savannah, Atlanta and Nashville.

BILLS IN COMMITTEE.

A Substitute for Reagan's Inter-State Commerce Bill.

[SPECIAL DISPATCH TO THE OREGONIAN.]

The inter-state commerce committee to-day adopted Representative Henderson's bill as a substitute for the Reagan bill. Henderson's bill was amended in several particulars before accepted as a substitute. It provides for a board of commissioners with powers and duties similar to those proposed by the McCord bill and Charles Francis Adams' plan. One of the amendments extended the jurisdiction of the commissioners over the transportation of all property by railroad from one state or territory into or through one or more other states or territories or to or from any foreign country, whether such property be owned by one railroad or by several roads running in connection with each other, and whether such commerce be carried on roads lying wholly within one state or more. Another amendment adopted on motion of Bliss, requires the commission to inquire into that method of railroad management known as "pooling," and to state the result of such inquiry in their annual reports, and whether in their judgment, any, and if so, what legislation is expedient in relation thereto. The senate committee will vote upon Ingalls' case on Monday next.

By the bill discriminations and rebates are forbidden. Henderson's bill was adopted by the following votes:

Yeas—Representatives Bliss, Ross, McLane, Deuster, O'Neill, Waite Henderson, Townsend of Ohio and Russell—9.

Nays—Representatives Reagan, Kenna, Thomas, Turner of Kentucky, Acklin, Beale and Clardy—6.

The bill was ordered to be reported to the house with a request that an early date be assigned for its consideration. The last section of the bill appropriates $25,000 for carrying into effect its provisions from the date of enactment from June 30,1881, and provides that no pending litigation between railroad companies shall in any way be effected by the provisions of the act.

COALING STATIONS.

The United States to Establish Stations on Either Side of the Isthmus.

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, Feb. 13 —The naval expedition which has been sent down to the bay of Chiriqui, has for its purpose the establishing there and on the other side of the isthmus in the Gulf of Dulce, two coaling stations. This action has been taken by the administration with the advice and consent of leading gentlemen in congress of both parties. It means nothing more than stated above—two coaling stations at convenient points on the isthmus, such as exist at many other points, for instance, the department has now a cargo of coal on the way to the Samoan Islands, where also a new coaling station will be established. The secretary has found it very expensive to have naval vessels depend on supplies in private hands, which are often held at exorbitant charges. The bay of Chiriqui and gulf of Dulce have peculiar facilities for such stations, not only as a resource of safety, but because the two bays and intervening tract of land have been owned for many years, ever since the days of Buchanan's administration, in fact, by an American citizen who, it is understood is willing to sell all his right to the United States. This tract made the acquisition of real estate and water right for coaling stations there easier than at any other point equally convenient on the isthmus. It is said that negotiations are on foot for the acquisition by the United States of the whole of the Chiriqui tract.

The *World's* Washington special has the following additional: The *Adams* and *Kearsarge* have been sent to sea under sealed orders. Officers surmise that this is in connection with the isthmian canal project. The *Adams* started from San Francisco and the *Kearsarge* from Key West. There is authority for the statement that one of these ships will go to Panama and the other to Aspinwall and that naval stations will be established at or near these ports.

WEST INDIES.

Grant Sails for Mexico—Almost a Disaster.

HAVANA Feb 13 —General Grant and party sailed this afternoon for Vera Cruz by the steamer *City of Alexandria*. The same authorities who received the general on his arrival here accompanied him to the steamer. The party spent one day on the plantation of Luscarro and left there last night, starting from La Union station at 10 o'clock on a special train. Half hour later the engine struck a cow and the train went off the track luckily without serious consequences. The fireman was wounded. The train was running on an embankment ten feet high at the time of the occurrence. The passengers had to wait until three o'clock for another train. They arrived in Havana at six o'clock this morning.

POLITICAL

Henry Ward Beecher Comes out Strong for Grant and an Unlimited Number of Presidential Terms.

NEW YORK Feb 13 —Beecher said at the Lincoln club dinner last night:

If I could have my own way I would vote for Grant to come back [applause]. Partly because I should wish to bear testimony against the heresy of a third term which has taken such a strong hold of some people. I refuse to allow any party or any political organization to take away from me the right to call again to office a man who while in office has ably fulfilled its duties; one who is the choice of a majority of his countrymen and say that he shall not try again [loud applause]. I protest against going into an election handicapped and should select Grant because I think rotation in office is the curse of our affairs. What we want is more stability and continuity. It is a point of weakness that our president is elected every four years. It is unnecessary excitement and disturbance of our community and yet to have any army officer elected for life would be going to the other extreme. The best thing is to re-elect from term to term the man who is found to be competent and able to discharge efficiently the functions of his office [applause]. I hold a man should not only be eligible for a third term but even for a fourth term or fifth term [prolonged applause]. I do not know why if a judge is elected for seven years and re-elected repeatedly if he is an efficient judge a president should not be re-elected in the same manner. I should elect Grant if I had the casting of the vote of the country. I should elect him because I think he is the most remarkable man our age ever produced in any country. He is a man very little understood.

Blaine's Friends Resolve to Make an Open Fight—Indignation in Pennsylvania.

CHICAGO Feb 13 —The *Tribune's* Washington special says Senator Blaine's friends had a conference at his house last night, where it was decided that they shall henceforth make an active open fight for the republican nomination. General Albright of Pennsylvania says that he knows that 20 of the 58 delegates from Pennsylvania will not respect the unit rule adopted at the Harrisburg convention and that indignation meetings are being held throughout Pennsylvania protesting against that rule, and instructing the Blaine delegates to vote for Blaine.

The New Hampshire Republicans.

CONCORD, N H Feb 13 —The republican state committee has fixed upon May 6 as the time for holding the state convention to elect delegates to the republican national convention. There is a strong feeling that delegates should go to Chicago unpledged.

WASHBURNE SPEAKS.

He is Not a Candidate for the Presidency, and is for Grant "First Last and All the Time"

[SPECIAL DISPATCH TO THE OREGONIAN.]

CHICAGO, Feb 14 —The *Inter Ocean* has the following double leaded editorial: "The persistent efforts of certain journals hostile to Gen Grant in trying to make people believe that Hon E B Washburne is a candidate for the presidency has become annoying to that gentleman, and he authorizes the *Inter Ocean* to announce that he is not, and under no circumstances will be, such candidate. He is for Gen. Grant for the presidency first last and all the time. He further says that a friend who wrote to this paper the other day that he was a candidate for governor of Illinois was more zealous than wise. The *Inter-Ocean* is fully authorized to announce that Washburne is a candidate for no public position whatever, and that it is his earnest desire to see Grant nominated and elected president. He believes that Grant is the man for the place against all others, that he is the man to lead the party to success and the country on the road to permanent prosperity. Washburne appreciates the compliment intended him by many earnest friends in mentioning his name for these prominent positions, but understands also that his name is being used to divide and demoralize the stalwart forces and he desires in this way to put an end to it all.

BY ATLANTIC CABLE.

England's Trade Relations.

LONDON, Feb 13 —In the house of commons to-day Wheelhouse (conservative) moved the appointment of a select committee to consider the commercial relations between England and foreign nations, especially with reference to the importation of foreign manufactured goods from abroad and the effect of free trade. He said that America had beaten England in cotton cloths, and that the great manufacturing mills which were once working here were now only to be found in America. After a short debate the motion was rejected.

An Evasive Answer.

LONDON, Feb 13 —In the house of lords to-day, Earl Granville asked whether Lord Beaconsfield by his recent statements meant that no decision had been arrived at regarding Herat. Lord Beaconsfield replied that it would only lead to misconception if he went beyond the absolute statement that her majesty's government had not released Persia from her engagement not to occupy Herat.

The French Amnesty Question.

PARIS Feb 13 —In the chamber of deputies to-day Louis Blanc made an eloquent speech in favor of his motion for plenary amnesty. DeFreycinet, president of the council replied, saying that amnesty to produce its proper effect, should have its root in the public mind, but this was far from being the case at present. Except in large towns the country was not prepared to favor complete amnesty, and would only become favorably disposed thereto when it ceased to be an instrument of political agitation. In order to bring about amnesty it was necessary that the government should be strong and possess that moral force which would be bestowed by the support of the whole majority. DeFreycinet urged the partisans of amnesty to unite with the government to establish a perfect calm throughout the country and give the effect to reforms which the nation desired. Then the government would perhaps be strong enough to propose plenary amnesty. Blanc's motion was then rejected—313 to 115.

Unclaimed Treasures

[From the Spectator.]

There is a box no doubt at the Bank of England or at least the London *Gazette* said so in 1872 which contains or contained diamond necklace coronet and earrings which belong to somebody unknown and there is a legend of a heavy chest of plate deposited in a private bank nearly a hundred years ago all record of the ownership of which is lost apparently beyond hope.

DUBLIN Feb 13 —Unemployed laborers of this city held another demonstration to-day. In their speeches they declared that they were on the brink of starvation.

Prompt Plans of Relief

The *Times* says that the objection of Irish members that the charge upon the church fund would really be in aid of poor rates and would thus violate the express provision of the act of 1869 is consistent with the claim made upon the imperial exchequer. The measures of the government are intended only to take effect when the poor law system proves wholly inadequate whether it is at the cost of the church or state.

Lowe Alsea correspondence: The beach mines south of the bay are paying better than they ever have as the late hard storm "panned" the sand down low and miners do not have so much gray sand to work. Mr Starr reports $25 diggings but we think that too good to last long.

Interviews with citizens of Dallas as to their presidential preferences, shows a decided sentiment among the members of both parties. Blaine is the favorite with the republicans and Bayard, Seymour, Hendricks and Tilden run nearly an even race with members of their party. The latter is ahead however. Ex Senator Nesmith is mentioned for vice president by nearly every democrat, and one republican couples him with Blaine.

The Corvallis *Gazette* says that the Corvallis Fruit Company, composed of John Readman, Wallace Nash and others, have consigned to commission merchants in London and Liverpool, ten tons of Oregon dried fruit in bulk, and have guaranteed the quality of the same which is being introduced rapidly among English consumers. They now propose shipping a large invoice in two and four lbs paper boxes nicely labeled, with their guarantee on each label, and anticipate ready and active sales of the same.

The *Evening Telegram* of this city reports upon authority of Mr A G Guild formerly publisher of the Hillsboro *Independent* that a little daughter of Mr Bachus of Nehalem valley died recently from starvation. The statements are that the family were illy supplied with provisions at the time of the recent storm that by that disaster communication with the Beaver creek settlement was made impossible, that the father was compelled to work his way slowly by great hardship to St Helens to procure food and that during his absence his little girl Mabel died from starvation in her mother's arms.

Eastern Oregon

A Scotchman, living with William Horn, on Dry Creek about fifteen miles from The Dalles committed suicide on last Monday by shooting himself in the head with a pistol. The man was an old sheep herder and had become weak minded and partially insane.

On Monday afternoon at Celilo Scotty Sharp accidentally or intentionally shot Jas McNear, the ball striking him in the left breast a short distance above the heart. The men had been drinking at the time of the shooting. McNear was brought to town the same evening and taken to the Dalles House where he lies in a very critical condition with the chances of recovering against him. McNear is about 27 years old and has been employed as cook on the steamer *John Gates*. Scotty was not arrested at last accounts.

No Doubt of It

From the Evening Telegram

Our good friend the *Standard* fulfilling its lonely mission of journalism in a remote part of town seems very anxious to impress upon its readers the belief that Grant is the strongest man in the republican party. But should he be nominated at Chicago it could and would easily reverse that opinion by showing, beyond all question that he was the weakest man in the republican party.

Workingmen paraded again this afternoon about [illegible] strong, and visited the offices of the [illegible] Rubber Packing Company and W M Lewis & Co cigar manufacturers. At both places they were promised replies to-morrow. They then returned to the sand lot and while there a dispatch was received from Sacramento announcing that the governor had signed the Chinese bill. This was the signal for prolonged cheering and a round was given for the governor. Another meeting will be held to-morrow but it is probable that the procession will be more of the nature of a parade than heretofore and that visits to corporations will be discontinued for that day.

ANSWERS TO THE WORKINGMEN

Gov. Stanford's Reply to the Workingmen's Committee

SAN FRANCISCO Feb 13 —The following reply to the request of the workingmen's committee was to-day received by them:

SAN FRANCISCO Feb 13

J J Gannon and Peter Bell: GENTLEMEN—I have received yours, addressed to the Central Pacific Railroad Co calling attention to section 2 of article xix of the constitution of this state and also note your request to discharge the Chinese now employed by this corporation and to open a field where people of our own race can honestly and honorably earn their daily bread. There are now in the employ of the company within the city and county of San Francisco seven Chinamen. There is also employed by this company a large number of white men many of whom are retained because they have been heretofore employed by this corporation, but whose services are not at this time really needed. The company will ever be mindful of the laws of this state and will endeavor cheerfully to submit to them as it understands them or as courts may construe them. In the management of its business it will be governed under the laws of the land entirely by consideration of what it shall deem in its own judgment to be the wisest policy having due regard for the rights and interests of its stockholders. Respectfully

A Sharp Retort

Prentiss Selby, of the Selby smelting works also returned the committee a verbal answer to-day. He was quite explicit, and told the committee that he would hire what labor he chose and that he did not recognize the authority of any body of men to dictate to him. When the United States forbade him to employ Chinese labor he would obey the law and not until then.

New Developments in the Ophir Mine

[SPECIAL DISPATCH TO THE OREGONIAN.]

VIRGINIA, Feb 13 —Experts have just come out of Ophir. E A Schultz reports the crosscut on the east 2100 foot level from Hardy vein in 40 feet from the stopes through porphyry then comes 4 feet of very rich ore averaging $300, after that 6 or 7 feet of lower grade with a mixture of porphyry, but some rich ore. All will mill by throwing out a few blocks of porphyry. Then comes a foot or two of good ore in all 12 feet that will mill. The formation stands beautifully dipping to the east slightly and has a nearly northerly and southerly trend. Mr Schultz and others think this an entire new formation and declare that it looks better than anything ever before seen in Ophir. The Hardy vein butts against a clay wall. This is something new and has not been seen before since the 1465-foot level. White horse comes in except on the 1600 foot level where a little clay had a pitch to the west. This horse comes in at the 1465 foot level and squeezes the vein. The Hardy vein comes into horse and from the original formation. This original formation has now been formed. First comes a clay wall, then 40 feet of prophyry, then ore, etc.

County politics are eagerly canvassed and there appears to be no great scarcity of candidates.

Hon Ben Simpson, postal agent, was in the city yesterday looking after Uncle Sam's interests.

The tin roof of the state house is completed and so well put on that further trouble is not anticipated.

Dr Simms closed his course of lectures here last evening, having drawn crowded houses since he first commenced.

Lenten services are now regularly held at the Episcopal church in this city under direction of the rector Rev J T Chambers.

George T Terrell, Esq, will be a passenger on the next outgoing steamer for California and thence eastward for a visit amid the scenes of childhood.

H C Dale, Yamhill's defaulting ex sheriff, was turned over to the penitentiary authorities on Monday last. Considerable sympathy is manifested for him.

Arrangements are being perfected for the early opening of the mute school in this city. The state board of education has engaged the services of Rev P S Knight, who will assume the superintendency. It is proposed during the ensuing summer, to form an incorporation of responsible and philanthropic gentlemen selected from various portions of the state whose duty it shall be to act as a board of regents for the institution and receive from the state such support as will enable them to place it upon a permanent and substantial footing. Several of these gentlemen whose names alone when given to the public will be a guarantee of success have been interviewed on the subject and express a hearty willingness to co-operate with the present state board of education in making the institution one every way worthy of the name it bears.

THE HOMICIDE AT MONMOUTH

Additional Particulars of the Shooting of M Crosley by R M Johnston—Palliating Circumstances

Johnston Admitted to Bail on the Charge of Manslaughter

From the Dallas *Itemizer* of yesterday the following additional particulars concerning the recent distressing homicide at Monmouth are obtained:

For sometime bad feeling had existed between the men which was engendered by some trifling matter during last harvest. Time had only served to make them more bitter toward each other and a row between them was expected.

On the day in question Crosley had been to Independence with a team and Johnston and his wife and children had also been there. Crosley left town first and had stopped at the postoffice at Monmouth and got the mail after which he started on. About this time Johnston who was driving a four horse team came to the postoffice to call for his mail and before he had returned to the wagon Crosley had come back and going up to Johnston informed him that they would settle their differences then and there. Johnston did not want to fight and kept backing off and telling Crosley that if he attempted to strike him he would shoot. Finally Crosley struck him a blow in the face causing him to stagger back and as he recovered himself he raised his pistol and fired the ball taking effect in the breast. Crosley after being shot ran into the postoffice and returning fell to the sidewalk and expired.

After the shooting Johnston made arrangements with Frank K Hubbard who was there to take his wife and children home and mounting Hubbard's horse rode to the home of his father near Buena Vista to apprise him of what had taken place. Sheriff Hall happened to be in that part of the county and soon took Johnston into custody.

An inquest was held on the body of Crosley by M L Pipes justice of the peace acting in the absence of the coroner and a verdict was rendered in accordance with the above facts.

On Saturday an examination of Johnston took place at Independence before M L Pipes and resulted in the accused being bound over in the sum of $5000 to answer a charge of manslaughter. Bonds were furnished and Johnston is now at liberty.

ALSEA BAR AND HARBOR.

Survey of Alsea Harbor and the Bar in Front of It—Report of Col Gillespie, and of Mr R A Habersham, Assistant Engineer

UNITED STATES ENGINEER OFFICE,
PORTLAND, Dec [illegible], 1879

General: I have the honor to transmit herewith a chart of Alsea harbor Oregon, accompanied with a report of Assistant Engineer R A Habersham and to submit the following report of a survey made under my direction in compliance with the river and harbor act approved March 3, 1879.

Maj J M Wilson corps of engineers states in his report on an examination of this harbor dated September 23, 1878 that:

The act of June 18 1878, directed an examination to be made of the Alsea river and bay Oregon and an estimate of the cost of improvement proper to be made. The result of the examination and of conversations with residents at the bay demonstrated the fact that no improvement of this river was expected and none is deemed proper to be made. What the people of Alsea valley want, and what I respectfully recommend is that an accurate survey may be made of the harbor and the bar in front of it, proper charts prepared for distribution to mariners and the bar properly buoyed.

No work of improvement is deemed proper to be made, but I would respectfully recommend that the chart of the harbor be printed for the use of mariners.

There is no port of entry at the Alsea river. The nearest port of entry is Newport, Yaquina bay Oregon 12 miles north of Alsea harbor.

No revenue was collected at Newport for the fiscal year ending June 30 1879. A small coasting tug occasionally enters Alsea harbor and does all the carrying trade for the harbor. No sailing vessels ever visit the harbor.

The nearest light house is on Cape Foulweather, about 15 miles distant; the light formerly located at the entrance of Yaquina harbor has been discontinued. The nearest works of defense are at the mouth of the Columbia river distant 125 miles approximately.

I am general, very respectfully, your obedient servant,

G L GILLESPIE,

Major of Engineers, Brevet Lieutenant Colonel United States Army

CHIEF OF ENGINEERS United States Army

Report of Mr. R. A. Habersham, Assistant Engineer.

UNITED STATES ENGINEER OFFICE,
PORTLAND, Dec. 8, 1879

Colonel: I have the honor to submit herewith the chart of Alsea bar and harbor drawn from the survey made in pursuance of your letter of instructions dated August 17 of the present year.

The bar is situated 123 miles south of the Columbia, and 14 miles south of Yaquina bay. A full description of the bay and the country tributary to it its resources and products, has been given in the report of your predecessor for the fiscal year ending June 30, 1878.

The portion of the bay included in the survey referred to as the harbor, comprises all anchorage ground for such vessels as can cross the bar, that is, whose draught does not exceed 12 feet. It covers an area of 60 acres with a depth of from 10 to 18 feet at low tide. The tidal range is 8 feet during neap and 9 feet during spring tides.

The entrance to the harbor lies between a bold headland, 60 feet high, on the south, and a long low sand spit, covered with drift wood on the north. It is narrow, being not more than 200 feet between the 12 foot curves, and from 25 to 40 feet deep.

From the entrance toward the bar the channel widens to 400 feet, curving sharply from west to north northwest, and back to west northwest, crossing the bar on the last named course. The bar lies 2000 feet outside of the general line of the shore at high tide connecting the south shore and north spit, its axis being nearly parallel with that of the latter. It is 800 yards in length and 700 yards in width between the curves of 12 feet.

The ship channel shifts constantly from one place to another, a heavy wind lasting a few days, being sufficient to cause it to move several hundred feet northward or southward. Generally the southerly weather which prevails during the winter drives it northward, and the northwest winds of summer force it southward. It is easily found, however on the south half of the bar, the southerly winds and currents being strongest and prevailing during the greater part of the year. At the time of the survey the channel crossed the bar near the extremity, with a width of 900 feet between the 6 foot curves, and a least depth of 7½ feet at low water, and I am informed that these dimensions do not change. The distance across the bar, varing with each new direction of the channel ranges from 1,500 to 1,800 feet.

The steam-launch engaged for this survey failing to arrive, a 6 oared boat was the only craft that could be obtained for sounding. In this it was not safe to venture far outside of the bar, for fear of losing the intervals of smooth water necessary to enable us to recross the bar, which occurred very rarely, in fact, only three times during the two weeks I spent in making the survey, and lasting less than an hour on each occasion. It was not possible, therefore, to survey the approaches to the bar but as no breakers were seen, even in rough weather, outside of those on the beach, it is safe to conclude that the foreshore slopes uniformly, with a tolerably smooth bottom. If the survey could have been made in the month of June or early in July more complete information could have been obtained.

There are no outlying reefs nearer than the seal rocks, four miles north of the bar. These are pinnacles, rising out of the sea to the height of from 10 to 30 feet at low tide distant from the shore from one-eighth to one-fourth of a mile, and are portions of a ledge of basaltic rock which forms the rugged shore line for an extent of about a mile opposite the rocks. During ordinary weather the bar may be safely crossed by steamers drawing not more than 12 feet at high tide; sailing craft larger than fishing boats should not attempt to enter without a tug except with a west wind and tolerably smooth bar, but may cross outward at any time when the wind comes from the east, northeast or southeast.

The promontory which marks the south side of the entrance to the harbor is formed of course soft sandstone containing fossil shells and hard nodules and rests, at the level of low tide on a bed of soft, soapy black shale inhabited by myriads of rock oysters. The hills around the bay are similar in formation to the promontory, and are covered with forests of spruce timber from 60 to 100 feet high.

Inside of the entrance the contour of the bottom shows marked changes since the survey of 1875, and the ruling depth is from 2 to 3 feet less. It is possible that in the absence of an established tide gauge the base assumed for the levels of that survey may have been too high, and the discrepancy in the tide lines of the two surveys at points where the beach being rock in position, could not have altered in shape makes this probable. The base adopted for the present survey was the level of mean low spring tides as given in the official tide tables for 1879, from which the daily tidal changes in the bay during the survey did not vary sensibly.

This survey was made between the 17th and 31st of August: rough water and foggy and rainy weather prevailing during the greater portion of the time. Respectfully submitted

THESE DEGENERATE DAYS

A correspondent of the New York T[illegible] furnishes a long article on the history [illegible] lobby in Washington The history proves that the lobby is by no means a modern iniquity as many seem to suppose It is a matter of record that ever since the foundation of the government and even during the administration of the father of his country undue influences of one kind or another were brought to bear upon members of congress and upon members of the administration Shortly after the commencement of the present century a senator from Ohio was expelled because of corrupt practices which seemed to have been proved against him and at more or less frequent intervals ever since congress the capital and the country have been startled by allegations of corruption made against prominent officers. Many of the most widely known men of the time, if tradition speaks truly were in the pay of the English tariff lobby of 1824 and the succeeding years Many readers of the present day will still remember the great Gardner frauds in connection with claims growing out of the Mexican war, and the seemingly well substantiated statements that the secretary of the treasury had profited by the swindle This Gardner swindle had a prodigious lobby behind it Again, about twenty five years ago there was a most powerful lobby in the interest of the Collins steamship line Its operations if repeated now, would be deemed most scandalous and disgraceful to the whole nation A great steamship, gorgeously fitted up and said to have cost upwards of $[illegible] 000 000 was sent to Washington, and for two days a most lavish entertainment was furnished to members of congress, members of the cabinet and influential politicians Even the president himself was present. These incidents, though many others might be collected, will serve to show that corruption about the capital is not a practice exclusively of these later and supposed degenerate days.

For further illustration of the way things were sometimes done in those "purer and better days of the republic," of which we hear so much, another incident may be recalled." It has in fact been widely recalled by the recent death of the person over whose social standing the whole affair took place Margaret O'Neill was the pretty daughter of a tavern keeper in Georgetown. At an early age she married a man named Timberlake, a purser in the navy. After a few years he died, it was believed by suicide. Stories derogatory to his wife's good name were reported to have been the provocation to the rash act. After a little time she married Major Eaton of Tennessee, a close friend of Gen Jackson. Eaton was soon afterwards elected senator from Tennessee, and a few weeks later by reason of Jackson's clannish friendship, to which the same quality in Gen Grant bears a remarkable resemblance Eaton was made secretary of war But the ladies of the cabinet refused to call on Mrs. Eaton. President Jackson took the matter up in her behalf, and [illegible] to force her social recognition The cabinet was divided into two opposing factions, and the line of division stretched down, as a recent review of her life states it, through both houses of congress and extended throughout the entire country. On one side there was every effort to ignore Mrs Eaton, and on the other to do her honor. It was a [illegible] almost or quite without a parallel [illegible] in the social-political contests and [illegible] that have ever occurred. It broke up the cabinet, as Gen. Jackson actually made recognition of Mrs. Eaton in highest [illegible] a test of fitness for office and of favor with the administration. Mr. Van Buren, the most smooth and politic of men by the address and success with which he promoted [illegible] wishes in the matter, earned his undying gratitude and support and to this [illegible] Van Buren actually owed his [illegible] to the presidency as the next successor to Jackson. It would be impossible now to re-enact at Washington a social drama like this, with its absurdities and scandals The land would ring with it, and the actors [illegible], if not for shame, would be [illegible] to hide their heads. The history of the affair is an incident among many others which shows that the proprieties of public life at the national capital were not so fully [illegible] in former times as most critics of the present time are accustomed to represent. The comparison on the whole is in favor of [illegible] administrations.

REDUCE THE DUTY.

The report from Washington states that [illegible] members of the house committee of ways and means have expressed themselves [illegible] reporting and passing this session a bill to reduce the duty on steel rails to [illegible] $12. Also it is stated that it is found [illegible] conversation with western and southern [illegible] the disposition to favor such a [illegible] is increasing. But the proposition to reduce the monopoly tax has aroused the Pennsylvania men, who say that the twenty-seven votes of that state without distinction of party, will be arrayed against the reduction and also against every other measure which the movers of this measure may wish to get through. Of course the representatives of the monopoly will contend for protection of the scheme which furnishes so fine an opportunity for robbery How enormous the robbery is may be gathered from a little attention to the details of the subject.

The present duty on steel rails was established in 1871, at one and a quarter cents a pound. Prior to that time the duty was like [illegible] upon other manufactures then 45 per cent ad valorem. The specific duty established in 1871 was at the time a little less than the ad valorem duty had previously been. But with the decline in value of steel it increased in percentage till a few months ago, when, as rails had fallen to $22 a ton in England, it amounted to 120 per cent. ad valorem. But the duty for the time was not burdensome, because the demand for steel rails was limited and the mills of the country were able to supply it Up to the close of the year 1879, or nearly to that time the home production supplied most of the demand. But at that point the general revival of industry communicated its impulse to railroad building, and the demand doubled every month. The capacity of the mills is about 500,000 tons annually, and the demand for the present year will be more than double that amount And the price has doubled with the demand, protected as the scheme is by an almost prohibitory duty. The country wants a million tons of rails this year, and the mills can only furnish half a million In order to get them it must pay not only the advance but a tax of $28 a ton on the commercial value of the rails. The fruit of the tax is enjoyed by eleven mills. The amount runs up into millions. In the first place the railroads must pay, and then of course the patrons of the roads must pay it back to them in increased freight and passenger rates It is a tremendous tax upon the industry and particularly the agricultural industry of the country. The movement for reduction of the duty simply contemplates a reduction of the burden of the consumers and the blackmail to the steel mills from $28 to $1[illegible] per ton or the aggregate amount to be paid on the present [illegible] in excess of a fair price from $[illegible] to $[illegible] This last figure should give the eleven mills protection enough and it would still be a bonus of more than $100,000 to each one of them

JUNK SHOP NEWSPAPERS

The Willamette Farmer which lays claim to the title of an agricultural newspaper for no other known reason than that its conductor knows nothing about either agriculture or journalism asserted again lately that THE OREGONIAN was deficient in commercial news and did not furnish reliable quotations Yet we observe that the so-called Farmer called Farmer on the principle described by the term *lucus a non lucendo*) reprints every week such commercial news and quotations as it has from THE OREGONIAN though of course so mutilated and abridged—since the *Farmer* has not resources to put them in type after they are furnished it free—as to make them almost or quite worthless For the rest the *Farmer* is filled with old telegraphic reports out of back numbers of THE OREGONIAN and with the stale patent outside clippings from another old junk organ like itself which is run in connection with it We should not notice the thing except that it keeps up its snarling and barking at THE OREGONIAN and makes fraudulent pretenses to the country Let it be observed that the only reports published in the entire Pacific northwest which give any information about the markets or furnish any general news are those which appear in this journal, and the *Farmer* like all other papers of its kind depend entirely on these reports and have no other resource But all they can do is merely to reprint a small part of the matter at second hand and this after it has become stale and has been superseded by later information The accuracy of our reports corresponds with their fullness We have complete commercial news through two sources independent of each other—our own reports furnished through the associated press and the Gold and Stock Co's reports supplied through the Merchants' Exchange Our expenses for news alone exceed $1600 a month, and the report is so full as to cover all lines of news and every event of interest in all parts of the world Papers like the *Farmer* are welcome to go on rehashing and reprinting, in other words to follow after THE OREGONIAN and pick up its leavings but they shall not misrepresent the matter without an exposure through these columns, by means of which any who like to do so may be enabled to see and beware of quackery and imposture.

The Vancouver *Independent* pointedly condemns the action of a portion of the republican central committee of Washington territory of which an account was recently given by THE OREGONIAN It styles their proceedings "political jugglery which it says should be rebuked at the national convention" The committee, it declares, should have called a territorial convention, and not assemble a bare majority in the interest of a certain official to fix things and smooth the way for his reappointment" Also, that it "was in exceedingly bad taste for those members of the committee, two of whom are or have been the governor's appointees to office and one other a relative of his family, to exclude on technical grounds proxies from the river and east of the mountains, and then unanimously resolute' for the governor's reappointment" The *Independent* is of opinion too that such a course when understood will react with terrible force on the governor" We beg our neighbor over the border to be more considerate and merciful With the governor it was a case of absolute necessity He is like the boy going after the animal with a spirit and perseverance born of the recollection that the family was out of meat Has the *Independent* no compassion, no charity? Does it really mean to say that it would turn out upon a cold world a man who has been a professional office holder all his life and has acquired thereby not only the "usufruct" habit but a feeling that through immemorial occupancy of office he has gained a perpetual franchise? Be reasonable, *Independent*, remember that the governor finds it both pleasant and profitable to sit at the fleshpots. Surely you would not turn him out to wander hopelessly in that pauper warren known as the demesne or limbo of cast-off politicians, over the gate of which is written, "Who enters here leaves hope behind?"

It now appears to be doubtful whether Cameron can control the solid delegation of Pennsylvania for Grant, after all Only the delegates at large were selected by the convention; the others, fifty six in all, are yet to be chosen in their respective congressional districts. Blaine's supporters declare that they will elect delegates who will disregard the instructions of the packed convention, and vote for him at Chicago This same thing was done at Cincinnati in 1876 The Pennsylvania delegation, then as now, was under instructions, but many of its members asserted their independence and it split twenty eight going for Blaine and thirty being controlled by Cameron for Hayes An attempt was made to prevent the vote of the state from being cast except as a unit but on appeal to the convention the question was decided against the ring managers and individual delegates were declared to have the right to vote as they thought fit. It is extremely probable that the same scene will be acted over at Chicago next June

The Dallas *Itemizer* has been interviewing citizens of Polk county to ascertain their presidential preferences A majority of the republicans interviewed declared themselves for Blaine. The democrats were divided between Tilden, Seymour Bayard and Hendricks with Tilden perhaps a little ahead What strikes us as a thing particularly worthy of notice is the frequency with which the name of Mr. Nesmith is given as choice for the vice presidency It appears in the democratic list in all these combinations viz Tilden and Nesmith Seymour and Nesmith Bayard and Nesmith and Hendricks and Nesmith And in the republican list we have the combination — Blaine and Nesmith While we do not imagine that Mr Nesmith is a candidate for the vice presidency his name has weight enough to serve as an equipoise for any other in either of the combinations above indicated and furthermore, his platform as indicated to a representative of THE OREGONIAN the other day namely "honest money free trade good government and don't care a blank who gives it, is about as good a platform as we shall have from any party in this year of grace 1880

Ralph Meeker son of the agent who was murdered by the Utes has written a letter denouncing the Pueblo (Colorado) *Chieftain* for publishing the statement as to the outrages perpetrated by the Indians upon his mother and sister He says that when the horrible story was told it was with the express understanding that it was not to be published since publication could do no good and would only add to the shame of those who had already suffered the revolting indignity but that it was only to be used by the government in bringing the guilty Utes to justice The publication by the *Chieftain* he pronounces brutal insolent and unnecessary, and unworthy of a man who has a heart The spirit which prompts these statements is one which every person is bound in decency and honor to respect

In a letter to the New York T[illegible] Neal Dow explains that the pains and penalties of the law are [illegible] more [illegible] the bad men who sell liquor in Maine in defiance of the Maine law In other words prohibition does [illegible] prohibit

Dividends paid by the New York Central railroad from 18[illegible] to 1[illegible] amount to the prodigious sum of $10[illegible]. The stock is one of the best investments of the kind in the world

Mr Beecher who supported Grant for a second term now wants him for a third This is directly in the line of Mr Beecher's characteristic eccentricity and therefore is not surprising

MASONIC RELIEF CONCERT.—As might have been expected from the excellent programme offered, Turn-Halle, notwithstanding the storm, was completely filled last night at the concert for the benefit of the Masonic relief fund. Every seat on the main floor and in gallery was taken and a large number had only standing room. As a whole, the concert was musically and financially the most successful of the season of 1879-80. The first two numbers, a serenade quartette, by Messrs. Rees, Wyatt, Kinross and Lowndsdale, and an aria, "Vieni la mia Vendetta," from Lucretia Borgia, were fairly rendered. Mrs J. M. Van Bosch gave an aria, "On Rosy Wings" from Trovatore with much feeling, and was heartily encored. Her "Love's Greeting" in the second part was equally well rendered and added no little to the lady's reputation as a vocalist. Mrs. C. A. Dolph's reading of "The Hero Boy" was a delicate, tender bit of feeling elocution, and called forth a loud burst of applause and an encore, to which she responded with a humorous Irish-French sketch. In the second part Mrs Dolph gave [illegible] from the siege of Valencia, by Mrs. Hemans, with wonderful pathos. The double quartette, a march (unaccompanied) by Messrs. Rees, Withington, Wyatt, Warren, Jno. Gill, Kinross, Lowndsdale and [illegible], was the best chorus of the kind [illegible] here for years, it being well balanced, [illegible], elastic, and sung in perfect time. Mrs. Wyatt's rendition of "I Cannot Sing the Old Song" showed that her voice has lost none of its charms. Mrs. Cruzan sang "When the Flowing Tide Comes In" with unusual [illegible] and sweetness and was rewarded with a [illegible] encore. Miss Tuthill recited "Little [illegible], the Musician," a touching sketch, with tasteful expression and feeling, and responding to an encore, gave a humorous version of "Adam's First Meeting Eve." Mr. Lowndsdale was suffering from a severe cold, and was unable to do justice to his number, "[illegible] Love Thee," but under the circumstances acquitted himself creditably. The [illegible] share of praise must be accorded [illegible] DuBois, who has established herself in [illegible] estimation as the most accomplished of [illegible] singers. Her "Tacea la Notte" [illegible] Il Trovatore was from first to last a brilliant succession of *fioriture*, which an ordinary [illegible] would not dare to attempt. The applause which greeted the conclusion of the [illegible] amounted almost to an ovation. She [illegible] with "Coming thro' the Rye," and [illegible] to that well worn ballad a new [illegible]. Her rendition of a recitative, [illegible] Cenerentola, "Nandaria "Come per [illegible]" in the second part, was a [illegible] of her first triumph. In response to the loud demands of the audience, Miss [illegible], accompanying herself, sang "[illegible] Sweet Home." Mrs. Goodsell was [illegible] and did not appear as announced. [illegible] presided at the piano. This is [illegible] saying that the duties of accompanist were artistically performed, for when [illegible] Vinton ever slight his work on the [illegible]?

[illegible] DISBANDED.—Mention was made a [illegible] ago of the purpose of the United [illegible] of Portland to disband the organization. Last evening, all preliminaries having been concluded, the unfinished business [illegible] and the society dissolved by [illegible] consent. A considerable sum of [illegible] in the treasury, and on disbanding [illegible] property belonging to the organization [illegible] and the proceeds added to the [illegible] on hand. An equal and equitable [illegible] of the money was made among the [illegible]. The best of good feeling and harmony characterized the disbandment of this [illegible] most respectable Irish organization.

[illegible] MISTAKE.—A robin, a few days [illegible] violently against the bay window of [illegible] in the upper portion of the city, evidently mistaking glass for thin air. The creature, however, paid dearly for the [illegible]. The large pane of glass was shivered by the blow, and the bird passed through [illegible] parlor. The lady of the house heard [illegible], and naturally supposed it was a stone from some street arab. She [illegible] to the parlor, and was surprised to [illegible] robin lying on the carpet in a [illegible] condition. She picked the bird up but it expired in a few moments.

[illegible] R. R. NOTES.—The Western Oregon railroad is receiving fifty to sixty tons [illegible] per day from the Dayton & Sheridan narrow gauge road, and is sending considerable quantities of general merchandise [illegible]. Superintendent J. Brandt, jr., [illegible] to have the road in such a condition [illegible] month that the running time between [illegible] and Corvallis will be shortened [illegible], thus enabling the train to arrive at [illegible] at 5:30 P. M. and leave at 7:5 A. M. [illegible] on the gravel bar in the Willamette [illegible], three gravel trains will be put [illegible] the road thoroughly ballasted with [illegible] dispatch.

VALENTINE'S BALL.—Last evening a [illegible] concourse of citizens of Portland and [illegible] Portland assembled in Neppach's hall in [illegible] city to participate in a grand ball. The hall was filled to excess, and under [illegible] direction of Messrs Gillespie, Redick, [illegible] and Kerns, all who attended derived [illegible] pleasure with the evening's entertainment. Owing to the late hour we are unable [illegible] who the lucky individual was [illegible] the prize offered by the committee [illegible].

[illegible] NEEDED.—Recently those having occasion to drop letters in the postoffice box at [illegible] of Alder and First streets, at a [illegible] of the evening, find considerable [illegible] in getting letters in. We are informed that the box is crowded full of letters, [illegible] which are dropped late have to be [illegible]. It is suggested that there [illegible] two boxes placed there or else a [illegible].

[illegible] LITHOGRAPHED.—Mr. W. B. Marye, [illegible] employed as an assistant in the office [illegible] city surveyor, has completed a splendid [illegible] of Couch's addition, showing accurately the cuts and fills on all the streets in [illegible] of the city. The work has been [illegible] in first class style and reflects [illegible] on the skill of Mr. Marye. The [illegible] been lithographed.

TEMPERANCE MEETING.—The temperance [illegible] at the Y. M. C. A. rooms this evening promises to be one of unusual interest. [illegible] will be presided over by J. F. [illegible] Esq. Addresses will be made by Rev. [illegible] Walburton of McMinnville, and E. W. [illegible]. Excellent music will be furnished [illegible] selections. Cordial invitation extended [illegible] public.

[illegible]—The steamer *Alex Duncan* sailed [illegible] (Saturday) morning for Yaquina Bay and [illegible] with 1490 packages of assorted merchandise, also a number of passengers. [illegible] land at Astoria to receive additional [illegible] and passengers. On her return to this [illegible] will load for Victoria, Seattle Port [illegible] and Sound ports, leaving on the [illegible].

[illegible] OF THE LECTURE.—The whole [illegible] of Archbishop Seghers' lecture, including the expenses of $31 50, will amount [illegible] to $450. All the returns of tickets [illegible] have been made, hence no exact account of the proceeds can be given. All persons holding tickets are requested to make their returns at their earliest possible convenience.

CATHOLIC MEETING.—There will be another meeting presided over by Archbishop Seghers [illegible] Neppach's hall, East Portland, to-morrow [illegible] P. M. The object of the meeting will [illegible] consider the prospects of rebuilding the St. Francis church. There will be mass at [illegible] hall at 10:30 A. M.

ATTENDANCE.—The total attendance at the public schools yesterday was 1938. The attendance was larger than at any time since studies have been resumed, and indicates that the public schools of Portland were never in a more prosperous condition.

POPULAR CONCERT.—The ladies of the Baptist Church have secured some of the best talent in the city for a concert to be given under their auspices in Masonic Hall next Friday night.

ST. VALENTINE'S DAY.

Good morrow, 'tis Saint Valentine's Day,
All in the morning betime
And I a maid at your window,
To be your Valentine.

Valentine, saint according to some ecclesiastical writers a bishop, according to others a presbyter, was beheaded at Rome in the reign of the Emperor Claudius A. D. 270, and was early canonized. Wheatly says that "St. Valentine" was a man of most admirable parts, and so famous for his love and charity that the custom of choosing valentines upon his festival, which is still practised, took its rise from thence." Others derived the custom from birds being supposed to select their mates on that day; others again from a practice prevalent in ancient Rome at the festival of the Lupercalia, held during the month of February, when, among other ceremonies, the names of young women were placed in a box, from which they were taken by young men according as chance directed. The pastors of the early church, finding it impossible to extirpate this pagan ceremony, changed its form. As once practiced, it was the custom on the eve of Feb. 14, St. Valentine's day, to have the names of a select number of one sex put into some vessel by an equal number of the other, and thereupon every one drew a name which for the time being was called his or her valentine. The custom of choosing valentines existed very early, and was much practiced in the houses of the gentry in England. There are frequent references to it in Shakespeare.

Whatever may have been the significance of the customs of St. Valentine's day in earlier periods, it is evident the day has lost all importance and that it has, in recent years, been regarded as only an opportunity for complimenting friends and loved ones, and for twitting acquaintances, either good naturedly or ill naturedly about their faults and foibles. In this city the custom of sending love missions has grown to such an extent, that the business transacted in valentines forms no unimportant branch of the bookseller's trade. Most of the purchases are made by children between the ages of 9 and 15, and the amount expended by them on each valentine is about 10 cents. Yesterday afternoon from 4 o'clock until after dark, the bookstores were filled with school children, every one of whom had more friends to make happy than their limited purses could buy presents for. Young men with embryo moustaches and love sick faces indulged in handsome remembrances covered with little fat cupids, and doves, and pigs, and roses, and flowers, and ingeniously carved paper, and way down in the center a real 'cute verse, with which to make glad the hearts of their adored ones, and some were reckless enough to pay as much as $5 for the ephemeral presents. Very few "comic" valentines were purchased, and it is to be hoped that these relics of barbarism with their horrid daubs of paint and vile verse will be consigned to oblivion.

Last year nearly 4000 valentines were sent through the postoffice here, and it is estimated that 5000 will be sent to-day. Those sending valentines should remember that the postage is *two cents*, instead of one cent as heretofore.

THAT LASS O' LOWRIE'S.

Perhaps no novel published for years has had a greater circulation than Mrs. Burnett's Lass o' Lowrie's. In this city alone it has been read and enjoyed by hundreds, and doubtless from the fact of its being so well known, possessing as it does so many exceedingly well drawn characters. The curiosity of the public will be excited to witness the embodiment of those characters in the hands of the New Market company. The part of Dan Lowrie will be played by Mr. Geo. D. Chaplin; "Feargus" by Mr. Lindsay; "Sammy Craddock," by Mr. Simms; "Rev. Paul Grace," by John Maguire; Mr. Babcom, Mr. Allen; "Liz," Miss Gertie Granville; Joan Lowrie, Miss Annie Adams; Annice Lanholm, Miss Cameron; Judd, the boy, Miss Edgar. Miss Douglas and Miss McLennan are also assigned important parts. The cast is good and in competent hands, and ought to draw a full house.

AMUSEMENTS.

Last evening, "Monte Christo" was repeated at the theater to a fair house. At matinee this afternoon Monte Christo will be presented for the last time. No one should fail to witness this very beautiful play. Ladies should bring their children out to hear little Maud sing her song "Somebody is Coming when the Dew Drops Fall."

BARTON HILL.—This finished and scholarly actor will arrive on the *Elder* and next Monday will make his first appearance in Portland in "Marble Heart." Mr. Hill is considered one of the most accomplished actors on the speaking stage, and his accomplished impersonations will be a rare dramatic treat to this public. During his professional sojourn in this city Mr. Hill will appear in a round of his best characters. Mr. Geo. D. Chaplin has been re-engaged and will support Mr. Hill. With the addition of Mr. Hill, Manager Maguire will have one of the best companies now playing on the coast. A crowded house may be confidently anticipated on Monday evening.

THE PENDING CAUSE

Proceedings of the Woman's Suffrage Convention.

CONSIDERATION OF VARIOUS MATTERS.

Spicy Debates—Election of Officers and Appointment of Vice Presidents, etc.

MORNING SESSION.

The association convened at the appointed hour. The first order of business was the consideration of the following additional questions from the letter box:

No. 1. Would not fights at the polls increase if women should vote?

No. 2. Would not divorces become almost universal if women had equal property rights with men and equal power with the husband to disburse the proceeds of his business?

No. 3. What does this association propose to do with the social evil when women become voters?

No. 4. Why are the ladies expected to spend so much time in discussing irrelevant matter? Is not the simple question "Is it right, and if not why not?" all that is necessary?

These questions were discussed at some length by Mrs. Dr. Boynton of Albany, Mrs. J. Minto and Mrs. H. W. Cooke of Salem, Mrs. F. O. McCown of Oregon City, Mrs. Dr. Thompson, Mrs. Duniway and Mrs. Eaton of Portland.

The entire morning session was occupied in the discussion of these questions, when the association adjourned until 2 P. M.

AFTERNOON SESSION.

The association was called to order by the president.

ELECTION.

The election of officers being declared the next order of business Mr. E. F. Heroy was nominated for president, and on motion the rules were suspended and the nominee elected by acclamation.

Mrs. J. Devore Johnson was chosen for recording secretary, and Mrs. M. A. Edmunds for corresponding secretary after the same speedy and satisfactory method. Mrs. Keenan was elected treasurer by ballot.

Mrs. Keenan instructed the retiring president to escort the newly elected presiding officer to the chair. Mrs. Duniway complied with a neat speech and gracious air that brought down the house.

The secretary read a spirited letter from Mrs. Ames of Union, and one full of wise suggestions from Mrs. D. W. Williams, of this city, who was unable to attend in person.

Questions from the letter box brought out a good deal of spirited comment. Those taking part in the debate were all on the woman's side of the problems under consideration.

Mr. I. Blum, Mr. L. Holmes, Chaplain Stubbs and other gentlemen came to the front as speakers in behalf of woman suffrage.

It was voted that a vice president for each county be appointed by the president whose duty it shall be to instruct incoming legislators to consider the claims of women citizens for their political enfranchisement.

In compliance with this order which was presented as a resolution the exact wording of which the reporter did not catch; the president made the following appointments for vice presidents:

Miss Agness Coburn, of Multnomah.
Mrs. S. A. McCown, of Clackamas.
Mrs. M. Minto, of Marion.
Miss Miggie Foster, of Linn.
Miss Lillian Cooke, of Yamhill.
Mrs. M. J. Peymale, of Jackson.
Mrs. F. Owens, of Douglas.
Mary Shane Smith, of Clatsop.
Mrs. Nichols, of Polk.
Mrs. Donnell, of Wasco.
Mrs. Tozier, of Washington.
Mrs. Webster of Coos and Curry.
Mrs. Myers of Josephine.
Mrs. Curry, of Grant.
Mrs. Eaton, of Union.
Mrs. Cleaver, of Baker.
Mrs. Olney, of Lake.
Mrs. Chenoweth, of Benton.
Mrs. Ream, of Lane.

Resolutions were further offered and adopted as follows:

Resolved, That the thanks of this association are hereby tendered to the ladies in the great national woman suffrage organization, who, with Susan B. Anthony at their head, have secured repeated hearings before the judiciary committee and committee on privileges and elections in the senate of the United States.

Resolved, That our thanks are due, and are hereby tendered to Wheeler, vice president of the United States; Beck and Williams, of Kentucky; Allison and Kirkwood, of Iowa; Dawes of Massachusetts; Ferry, of Michigan; Kernan, of New York; Pendleton, of Ohio; Conkling, of New York; Davis, of Illinois; Anthony, of Rhode Island; Baldwin, of Michigan; Voorhees, of Indiana; Saunders, of Nebraska; Farley, of California; Vest and Cockrell, of Missouri; Paddock, of Nebraska; Booth, of California; Burnside, of Rhode Island; Wallace, of Pennsylvania; McPherson of New Jersey; Cameron, of Pennsylvania; Hoar of Massachusetts; Plumb, of Kansas; McDonald of Indiana; Hamlin, of Maine; and Thurman, of Ohio; for their just action in presenting petitions for a sixteenth amendment declaring suffrage based upon citizenship without distinction of sex, and memorials praying for the removal of individual woman's political disabilities before the senate of the United States. And,

Resolved, That copies of the *New Northwest* containing this resolution be forwarded to the honorable gentlemen who have thus invoked our grateful remembrance.

Resolved, That this Association tenders thanks to the Oregon railway and steamboat companies; to the newspapers for their courteous reports, and to D. W. Prentice & Co., for the use of piano; and to Dr. O. B. Bird, Miss Mary Test, Miss Jones, Mrs. Cruzan, Mrs. H. W. Scott, Miss Annie Fearnside, Miss Sonora Witherell, Judge Adams, Rev. Mr. Cruzan and others for their able assistance in the convention.

Mrs. H. A. Laughory offered the following:

Resolved, That each woman of property should send a personal petition to the members of the legislature and senate of her precinct requesting to be relieved of taxation on her property, or be allowed to represent it by a vote.

Adjourned to 7½ P. M.

Evening Session.

The evening session was very largely attended by a harmonious and intelligent assembly, all of whom seem to be in accord with the objects of the convention.

The newly elected president was introduced by Mrs. Duniway, who explained that she was happy to announce to the audience that she had reached her "off year in politics." She gladly recognized the aid of men in this work for woman's enfranchisement and was proud to present her honorable successor—Mr. E. F. Heroy.

This gentleman came forward amid much applause and bowed in graceful recognition of the honor conferred. His remarks were brief but well defined and to the point, and ended with a promise to carry the woman's banner proudly through the coming year. He then abdicated for the evening in favor of the retiring president, who he said had been running the meeting and was better acquainted than himself with the programme.

Mrs. Duniway again took the chair.

Mrs. H. W. Scott and Miss Annie Fearnside favored the audience with an intricate and beautiful instrumental duet on the piano.

Prof. Cock and his little daughter followed with a fine duet.

Mr. and Mrs. Cruzan arrived amid great applause.

Mrs. Cruzan then proceeded, accompanied by Mrs. Prof. Cook at the piano, to render in an exquisite manner the beautiful selection from Haydn's oratorio, "On, Mighty Pens," in which she surpassed even herself. Being loudly encored the lady favored the assembly with a solo, which was also well received.

Mrs. Duniway then remarked that they didn't have all the Cruzan family present. The absent member was a bright-eyed little tot who would be a woman some day; and in anticipation of this event he had prepared an excellent lecture upon "Woman and the Bible," to which the convention was now invited to listen. This lecture proved an eloquent, comprehensive and entertaining dissertation upon the theme indicated, and evidently convinced the convention that the bible was on the side of woman.

The presiding officer followed with an earnest application of the speaker's theory to the objects of the Woman Suffrage Association. She then introduced Mrs Laughery, who announced herself as the candidate from Yamhill. [Great applause] Mrs. L. made a brief but pointed and logical speech in favor of the work of the hour.

Mrs. Duniway then introduced Mrs. J. B. Eaton of Union, who made a short, taking and telling speech, and styled herself the "bunch grass member." She was applauded to echo, and was compelled to respond to a recall, which she did gracefully.

Rev. Dr. Eliot related an amusing and appropriate anecdote.

Mrs. Dr. Thompson made a brief address, urging tax-paying women to petition the legislature for the removal of their individual political disabilities.

Captain Wilkinson made a speech and sang a solo.

Mrs. Duniway then declared the convention adjourned till Saturday at 10 A. M., when the final session will be held.

The ladies have good cause to congratulate themselves upon the success of this convention. Harmony, dignity and moderation have characterized their discussions, and much latent wisdom is being developed in their mode of meeting the important public questions that naturally come before them for consideration.

NORTH CENTRAL SEWER.

Report of W. S. Chapman, City Surveyor, in Relation to the Construction of the Proposed Sewer, Named—Names of those who are Opposed to the Improvement; Also those who are in Favor and those Noncommittal.

The following is a copy of the report of the city surveyor in relation to the construction of the proposed "North Central Sewer;" also the names of those who are opposed to the same:

PORTLAND, Feb. 12, 1880.

To the Hon. the Common Council of the City of Portland: GENTLEMEN—I have the honor to report that, as directed by the resolutions adopted at your last regular meeting, I invited the owners of property assessable for the proposed brick sewer in the northern part of the city, to visit this office on the 11th inst., and inspect the plans, etc., of said sewer. The invitation was the form of the accompanying printed card which was published in each of the four daily papers of the city for several days previous to the appointed time. By examinations of the assessment books, have ascertained that there are 413 persons owning land in the proposed sewer district. Of these, 121 visited the office to give their opinions for or against the construction of the projected improvement. Of the opinions expressed, 112 were "unfavorable" and ten were "favorable"—two owners desiring to be non-committal. Two hundred and eighty-nine owners of land in the proposed district did not visit the office. Very slight interest was manifested in the *plans* of the sewer—information as to the exact amount of assessment to be levied on each person's property being the great desideratum. A large number—perhaps half of those visiting the office—remarked that they thought they might favor the project if they knew what their assessment would amount to. Some expressed themselves as "favorable," who, after considering the uncertainty of the assessment, returned and changed their opinions. Many were opposed to the project without caring to know more than that they would be in somewise called upon to assist in paying for it. Others thought the building of so *permanent* an improvement premature, regarding the small number of owners at present in the district and the large number who would hereafter derive benefit from it; and expressed the opinion that the improvement should be paid for with city bonds payable in twenty or twenty-five years. Such was the leading ideas of those who were "favorable" to the construction of the sewer. Those who are recorded as favorable took that position with all the chances of possible assessments against them.

The names of those who have visited the office, together with the record of their opinions, "whether favorable or unfavorable," are herewith submitted to your honorable body, and also the land owners in the district, together with the gross value, according to the valuations in the city assessment books, of all the land owned by each class, the ascertaining of which has required considerable time from the duties devolving on this office; but less information might have given the subject an unfair showing.

The result of all this work may be concisely presented as follows:

			Value
"Unfavorable"	112	land owners	$ 255 000
Favorable	10	" "	70,000
Non committal	2	" "	81 300
Not visiting office	289	" "	6,5,700
Total	413	land owners	$1,012,000

I desire to express my thanks for the gentlemanly and courteous conduct towards me and my assistants of those citizens who visited this office in answer to the invitation given by your order.

I have the honor to remain, gentlemen, most respectfully, your obedient servant,
W. S. CHAPMAN, City Surveyor.

An Epidemic of Accidents.

It seems sometimes as if railway and steamboat accidents moved in cycles, so regularly do they come and go. Some diseases also come and go in the same way, leaving in their track desolate homes and mourning hearts, but even these are surpassed in the agony of lingering torment by diseases which cause excruciating pain, but do not kill. The bladder and kidneys are especially the seat of these troubles, but the celebrated OREGON KIDNEY TEA, a purely vegetable remedy, will cure all such cases, and is indeed a boon to the human race. Sold by all druggists.

Sole Agency for the Celebrated Kerbs and Spiess New York Cigars.

THE DEATH-RATE OF

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late that a Fever or Lung trouble has set in. Thousands lose their lives in this way every winter, while had *Boschee's German Syrup* been taken a cure would have resulted and a large bill from a doctor been avoided. For all diseases of the Throat and Lungs *Boschee's German Syrup* has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year, without a single failure known.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholsale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brick-dust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 00 a bottle, or six bottles for $5. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

COLORED IMMIGRATION.

A Circular Letter Issued by the Portland Colored Immigration Society.

Recently numerous letters of inquiry have been received from mechanics, men of means and others from the southern states by the Portland Colored Immigration society. In response the following circular has been issued:

PORTLAND COLORED IMMIGRATION SOCIETY,
PORTLAND, Oregon.

The colored citizens of this city, mindful of the widespread discontent among the colored people of many of the States of this Union, arising from varied and oppressive causes, which forces them to seek other and more hospitable homes among strangers, have organized themselves into a society to be known as the "Portland Colored Immigration Aid Society," for the purpose of "compiling and diffusing useful information on the products, resources and climate of the State of Oregon, for the benefit of such persons in other States as may desire to come and settle among us;" and, "to the extent of its ability, this society will give such encouragement, available and material aid as may become necessary to worthy individual and collective cases, by securing cheap fares on railroads, steamboats and other modes of transportation; make temporary arrangements for the accommodation of such immigrants as may arrive in our city from time to time; secure situations in town or country; advise with and instruct them in the selection of lands for settlement and homes, and such other services as may be needed by immigrants, and the society is enabled to give."

Should you find anything in the objects and purposes set forth above that will serve any one in your section of the country, a letter from them to the undersigned, setting forth the special points of information desired, will receive immediate attention.

Respectfully, etc.,
ALEXANDER FERGUSON,
Corresponding Secretary,
No. 30 Stark Street.

The distinctive features of this spool cotton are that it is made from the very finest

SEA ISLAND COTTON.

It is finished soft as the cotton from which it is made; it has no waxing or artificial finish to deceive the eye; it is the strongest, smoothest and most elastic sewing thread in the market; for machine sewing it has no equal; it is wound on

WHITE SPOOLS.

The Black is the most perfect

JET BLACK

Ever produced in spool cotton, being dyed by a system patented by ourselves. The colors are dyed by the

NEW ANILINE PROCESS,

Rendering them so perfect and brilliant that dressmakers everywhere use them instead of sewing silks.

We invite comparison and respectfully ask ladies to give it a fair trial and convince themselves of its superiority over all others.

To be had at all firstclass dealers in dry goods and notions. dec10dawlm

SATURDAY MORNING, FEB. 14, 1880.

NIGHT AND MORNING.

Was it a lie that they told me
Was it a pitiless hoax?
A sop for my soul and its longing,
Only to cozen and coax?
And a voice came down thro' the night and rain:
"They lied: thou hast trusted in vain."

Must I vanish off hand into darkness,
Blown out with a breath like a lamp?
Have I naught in the future to look to
Save rotting in darkness and damp?
And the answer came with a mocking hiss:
"Thou hast nothing to look to save this."

What of the grave and its conquest,
Of death and the loss of its sting?
Was it only the brag of a madman
Who believed an impossible thing?
And the voice returned, as the voice of a ghost:
"It was but a madman's boast."

Am I the serf of my senses,
Is my soul a slave without rights?
Are feeding and breeding and sleeping
My first and truest delights?
And the cruel answer cut me afresh:
"Thou art but the serf of thy flesh."

Is it all for nought then I travail,
That I long for leisure from sin,
That I thirst for the pure and the perfect,
And feel like a god within?
The voice replied to my passions a thought:
"Thy longing and travail is nought."

Then I bowed my head in my anguish
Folding my face in my hands,
And I shuddered as one that sinketh
In the clutch of quaking sands
And I stared, as I clinched my fingers tight
Out through the blank black night.

For life was short of its meaning
And I cried: "O God, is it so?
Utter the truth though it slay me,
Utter it, yes or no?"
But I heard no answer to heal my pain,
Save the bluster of wind and rain.

And behold, as I sat in my sorrow,
A quick ray shot from the East,
Another and then another,
And I knew that the night had ceased,
And the dark clouds rolled away to the West
As the great sun rose from his rest.

And now as the fair dawn broadened
Strong joyous and bright,
My whole soul swept to meet it
Rapt with a deep delight;
And a new voice rang down the radiant skies;
"Rejoice, I have heard thee; arise!

The tenor of dispatches generally from abroad, is to the effect that there is a slight check to the advancing tendency in the wheat market. Buyers appear more backward and though the depression may be only temporary, it will lessen the volume of transactions for a few days at least. There is another vessel at hand disengaged, but there is little disposition to effect charters at this time and the lower figures for grain in the English market will scarcely create any activity in freight.

Rise in the Price of Charters at San Francisco.

SAN FRANCISCO, Feb. 13.—Owing to the marked improvement in the state of the English wheat market at the close of the week a demand for tonnage was created, which resulted in the taking up of several ships on Saturday last, and active business has been done during the present week. Rates obtained for iron vessels were £1 5s to Cork, which is less than would now be accepted. It is reported that one of the vessels recently taken up, has been rechartered at an advance. Should the English market continue firm, higher rates may be looked for. Wooden ships are quotable at the close at £1 4s 6d direct, it being understood that a ship of about 2 0 tons carrying capacity closed to-day at £1 5s for Cork, U. K., Havre or Antwerp; £1 10s for continent, except above ports; £1 2s 6d for Liverpool, Havre or Antwerp direct. This shows an advance in rates. That it can be maintained depends entirely upon arrivals within the next few weeks. Considerable tonnage is due, and should it all come upon the market at once, rates would have to give way. The amount of tonnage on the way aggregates 127,414 tons, being principally in vessels from South America, which are coming here seeking on account of the destruction of the guano deposits. A further increase from this direction is expected. Outside business has been moderately active and has taken out of the disengaged list several vessels that were suitable for wheat.

San Francisco Egg Market.

Eggs—The heavy consignments that have been sent in during the past week indicated that parties in the interior have been holding back with the view of selling at higher figures during Lent. The consequence is that the market is overstocked and prices have badly tumbled. We quote the market at 20@25c, with occasional small sales above and below these rates. Eastern are selling at 20c and Oregon at 18c.

NEW YORK FREIGHTS AND MARKETS.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW YORK, Feb. 13.—Threatening weather has caused rather a dull day at the wharves of clipper ships, and not much has been done. The G. O. Whitmore is the leading vessel, and will get off in a day or two.

Overland freights have been very active the past week, notwithstanding the threats of the Pacific Mail Company to issue a new tariff in opposition. Shipments amount to 3871 packages, including 20 bbls of currants, 170 cases canned goods, 150 kegs herring, 19 half bbls beer, 300 cases baking powder and 386 pkgs tobacco.

English Wheat Market.

[SPECIAL DISPATCH TO THE OREGONIAN.]

LIVERPOOL, Feb. 13.—A leading grain circular says that during the past few days there has been a further progressive improvement in all branches of the wheat trade at country markets. Both English and foreign were taken more freely for consumption at an advance of a shilling or two shillings per quarter.

Cargoes in all positions are about a shilling dearer. There has been a large business done, including many transactions for future arrival at Liverpool.

Since Tuesday wheat business has been fair at from a penny to two pence over Tuesday's prices. Corn is quiet and unchanged. A few millers attended this morning's market, and wheat took its upward tendency. Tuesday's full prices, however, were supported. There is quite a demand for corn, merely of a retail character, at the last quotations.

The Most Successful Physician on the Pacific Coast.

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh Bronchitis. Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Do you feel that any one of your organs—your stomach, liver, bowels, or nervous system, falters in its work? If so, repair the damage with the most powerful, yet harmless, of invigorants. Remember that debility is the "Beginning of the End" -that the climax of all weakness is a universal paralysis of the system, and that such paralysis is the immediate precursor of Death. CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.

For all bilious derangements, and as a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LANDS,

PEN D'OREILLE DIVISION.

THE NORTHERN PACIFIC RAILROAD COMPANY

Is now offering for sale nearly

5,000,000

Acres of its lands in the Pen d'Oreille Division in Eastern Oregon, which are comprised in the odd numbered sections for forty miles on each side of the railroad as now located from the mouth of Snake River, in Washington Territory, to Lake Pen d'Oreille, in Idaho. These lands, of unexcelled fertility, and adapted to farming on any scale that may be desired, are offered by the Railroad Company at such prices and terms as cannot fail to induce settlement and cultivation, causing a rapid growth in population of the country, and increase in value to those who now purchase.

The following Resolution of the Board of Directors of the Railroad Company, passed November 19th, 1879, fixes the cash price of land to actual settlers at two dollars and sixty cents per acre, which it is believed is a lower price than has ever been voluntarily placed upon its lands by any land grant company. This is, in fact, cheaper than the settler can purchase the same class of land of the Government under the pre-emption law, for the expense attending the making of final proof, and the journey to the land office which he must necessarily make in order to complete his entry, is more than the ten cents per acre added to the government price by the Railroad Company:

"*Resolved*, That the Agricultural Lands of the Company west of the Missouri river to Puget Sound shall be offered for sale to actual settlers at Government price of $2 50 per acre, with an addition thereto of ten cents per acre to be paid to the Company to reimburse it for the cost of selecting, surveying and conveying said land.

"This resolution does not apply to coal or iron lands, nor to lands chiefly valuable for timber, nor to lands required for town sites or suitable for manufacturing sites, nor in regions where water is scarce to lands containing springs or other natural supply, where it shall be for the interest of settlers at large that such water privileges shall not be exclusively held or controlled by any individual; nor to the lands required for the use of the Company in connection with the operation of the road."

To persons wishing to purchase on time, the remarkably low price of four dollars per acre is given on the following terms: One-fourth cash at time of purchase, the balance in three equal yearly payments at 7 per cent. interest. The above price for time sales is adopted for the present, but may be subject to change in the future.

All persons who have filed with the Railroad Company notices of intention to purchase, or "Settlers' Applications," as they are called, for land in this Division (except for the class of lands reserved by the terms of the resolution above given) and who have continued to reside upon or cultivate the land applied for, are requested to complete their purchase by making cash payment, or time contract, for the same. For this purpose application should be made to the Railroad Land Office at Colfax.

Persons who have not made actual settlement or improvement upon land they may have applied for, have no right to the first privilege of purchase; such lands will be sold to the first applicant. Those persons who have in good faith settled upon and improved the Company's land should lose no time in securing the same, as after a given time the land is subject to sale to any other person.

The land in this division being now offered for sale, no more "Settlers' Applications" will be filed.

SPINNEY will guarantee to [illegible] every case of Seminal Weakness or [illegible] case of any kind or character which he undertakes and fails to cure.

MIDDLE AGED MEN.

There are many at the age of thirty [illegible] who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
